Computer Science Project

-by S Saran Karthik,R Nileshwar and P Arvind

Team members :- S Saran Karthik,R Nileshwar and P Arvind

Name of the project :- Online store

Modules to be used :- Django

Overview of design :-

- The project will feature an online store where the sellers can login and post items to sell and the buyers can login and buy them. It will also have a full login system.
- Sellers can make pages for their product with images and description.
- Buyers can browse through these pages and buy desired products.
- Buyers can also review the products that they have bought.
